Directions:

1. Examine the list of words you have written in the first column
2. Put a " + " next to each word you know well, and give an accurate example and definition of the word. Your definition and example must relate to the unit of study.
3. Place a " $\sqrt{ }$ " next to any words for which you can write only a definition or an example, but not both.
4. Place a "?" next to words that are new to you.

You will use this chart throughout the unit. By the end of the unit should have the entire chart completed. Because you will be revising this chart, write in pencil.
